

## Concrete Admixtures, Adhesives & Aids

# EDECON CEMENT CLEANER

### DESCRIPTION

**Edecon Cement Cleaner** is primarily designed for heavy duty cleaning of cement. It contains a specific blend of specially inhibited mineral acids in combination with penetrants and wetting agents.

### **Specification:**

### USES

This product will remove the most stubborn stains from cement, no matter what the origin or how old, for it simply bleaches and eats away the top of the cement.

### ADVANTAGES

### TECHNICAL INFORMATION

### PHYSICAL CHARACTERISTICS

|                             |           |
|-----------------------------|-----------|
| pH                          | 1.0       |
| Specific Gravity            |           |
| Weight per Gallon           |           |
| Weight per Liter            |           |
| Appearance                  | Colorless |
| H <sub>2</sub> O Solubility |           |
| Odor                        |           |

### APPLICATION

**Edecon Cement Cleaner** may either be mopped on or sprayed on, though spray equipment should be cleaned immediately afterward if it is susceptible to attack from strong mineral acids.

### DOSAGE

**Edecon Cement Cleaner** can be diluted up to 10 to one (1) with water, depending on the job that needs to be done.

### PRECAUTIONS

**Edecon Cement Cleaner** literally reacts with and dissolves cement; therefore, the concentrated material should not sit for long periods on concrete since it may damage it. Before application to a cement floor, driveway, etc., a small test section should be run to determine the time of contact and the concentration necessary to accomplish the desired results.

As with any highly acidic material, proper care should be exercised in the handling of **Edecon Cement Cleaner**. Rubber gloves and goggles should be worn when handling the concentrated material. If splashed on skin or clothing wash with water for 10-15 minutes (remove contaminated clothing). If splashed in eyes rinse with copious amounts of water immediately for 15 minutes, and immediately contact a physician. If swallowed, do not induce vomiting, but give large amounts of antacid or egg whites in water and call a physician.

**FIRST AID** In case of contact with eyes, immediately flush eyes with lots of running water for 30 minutes lifting the upper and lower eyelids occasionally. Get medical attention immediately. In case of contact with skin, immediately flush skin with lots of running water for 30 minutes. Remove contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. If inhaled, remove to fresh air. Give artificial respiration if not breathing. Get medical attention immediately. If swallowed, do not induce vomiting. If conscious, give lots of water or milk if it is available. Get medical attention immediately. Do not give anything by mouth to an unconscious or convulsing person.

### PACKAGING

All of our products are available in the following delivery container sizes:

- Sample Jug – 19 liter / ≈ 5 US gallon
- Sample Mini-drum – 57 liter / ≈ 15 gallon
- Drum/Barrel – 200 liter / ≈ 53 gallon volume in a 55 US gallon drum
- Transport Tote – 1,000 liter / ≈ 263 US gallon
- Various Sized Tankers – available for bulk volumes

**WARRANTY:** The information herein is to assist customers in determining whether our products are suitable for their applications. Our products are intended for sale to industrial and commercial customers. We request that customers inspect and test our products before use and satisfy themselves as to contents and suitability. Nothing herein shall constitute a warranty, express or implied, including any warranty of merchantability or fitness, nor is protection from any law or patent to be inferred. All patent rights are reserved. The exclusive remedy for all proven claims is replacement of our materials and in no event shall we be liable for special, incidental or consequential damages
