

Concrete Admixtures, Adhesives & Aids

EDECON GROUTFIX

DESCRIPTION

Edecon GroutFix is an admixture in powder form for grouts and concrete that promotes flowability, reduces water requirements, reduces bleeding and segregations, increases strength, and compensates plastic shrinkage (controlled expansion).

Edecon GroutFix is a must for any construction application requiring pumpable concrete or grout. The excellent fluidity and flowability produced by **Edecon GroutFix** make it ideal for pumping grouts under slabs and foundations, filling fissures and crevices in dams and piers, shoring up deteriorated beams and columns, and pumping augured cast-in-place piles.

Specification: Meets all ASTM & ACI standards for grout admixtures.
